SUMMARY

I am a motivated and growth-oriented Junior Java Developer with experience in developing and supporting backend applications using Java. Currently deepening my knowledge of advanced Java concepts, I am passionate about applying my skills to real-world challenges and continuously enhancing my technical expertise.

WORK EXPERIENCE

Backend Developer, Qpixel pvt Ltd

2026 - PRESENT

- Qims (Qpixel Insurance Management System)
- Developed backend APIs for Consultant Doctor and Agent Trainer modules in the Qpixel Insurance Management System.
- Fetched and displayed required data from PostgreSQL database based on business logic and module-specific needs.
- Worked on backend logic to support data management, including CRUD operations and custom business rules.
- Integrated Liquibase for version-controlled database schema changes, enhancing collaboration across the development team

Java Intern , Qpixel pvt Ltd

2024 Dec - 2025 Mar

- Gained hands-on experience in Core Java, including Collections Framework, Java Streams and Lambda Expressions.
 - Developed clean, efficient, and testable code with guidance from senior developers.
 - Involvement in weekly evaluation of internship by team lead and senior developers.
 - Debugged and improved code as part of real-world development tasks.
-

PROJECTS

QIMS

Qpixel Insurance Management System

- Implemented user management with dynamic roles and permissions.
- Developed Agent KYC process with validation and document handling.
- Built proposal management workflows for submission, verification, and approval.
- submissions, verifications, and approvals.
- Implemented underwriting and automated claims processing to improve efficiency.
- Insurance Management System.
- Tools used: SpringBoot, PostgreSQL, REST Api, Liquibase, Spring Security

EMS

Employee Management System

- Developed RESTful APIs for employee CRUD operations.
- Implemented layered architecture with validation and exception handling.
- Managed database persistence using JPA/Hibernate and PostgreSQL.
- Handled schema migrations using Liquibase.
- Tools used: SpringBoot,PostgreSQL,REST Api,Liquibase

LMS

Library Management System

- Developed RESTful APIs for book, user, and reading history management.
- Implemented role-based access control and layered architecture.
- Applied data validation, exception handling, and ORM using JPA/Hibernate.
- Utilized JPA/Hibernate for ORM and efficient data persistence.
- Managed database schema migrations and versioning with Liquibase.
- Tools used: SpringBoot,PostgreSQL,REST Api,Liquibase

EDUCATION

Bachelor in Computer Application

2020 - 2024

Orchid International College

- Specialization in programming languages, database management systems, and software engineering

TECHNICAL SKILLS

- **Languages:** Java,SQL
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate
- **Databases:** PostgreSQL, MySQL
- **Tools & Technologies:** Liquibase, Git, Maven, Gradle, IntelliJ IDEA, Postman
